NOTE RESPECTING THE CALENDAR.

In calculating the time of the Sun and Moon's Rising and Setting, Horizontal Parallax and Refraction have been employed, so that the times indicate when their centres appear in the horizon.

The Tables employed in calculating the times of High Water, are the result of twelve months' observations of the tides at Leith. And to those Tables of the Semimenstrual Inequality, or the Mean Intervals between the Moon's transit and the time of High Water during each Lunation, used as a first approximation, have been applied the corrections due to the Sun and Moon's declination and distance, obtained from nineteen years' observations of the tides at the London docks. See "Philosophical Transactions," 1834, Part 2.

The whole is shewn in mean time, or that which is indicated by a well regulated clock, apparent, or solar time, being that which is shewn by a sun dial, which, on account of the unequal motion of the Sun in right ascension, &c. is sometimes faster, and at others slower than mean time. The difference is shewn in the column entitled, Equation of Time, for each month, which must accordingly be added to or subtracted from mean time as directed, in order to reduce it to apparent or sun dial time.

EDINBURGH:

JOHN GRAY, NO. 27, HANOVER STREET.

MDCCCXXXVII.

R. 109.

ANOTHER volume of GRAY'S ANNUAL DIRECTORY — the Sixth — is now nearly ready for delivery. But little change has taken place since the corresponding period of last year. *Both* the Edinburgh Directories continue to exist, and *exist* is the true word; for the *published confession* of *both* their editors is, — “*The annual result of our labours is the loss of money.*”

How much *longer* this state of things is to continue, — how much longer volume after volume of a large Octavo is to be issued from the press for the reward of *nothing* — it is difficult, perhaps, to conjecture: time will shew. Every one, however, is conscious of the *force of habit*; and, for my own part, having now got completely into the *habit* of publishing annually a Directory of and for this City, I am very much inclined to think that, *profit or loss*, I shall continue to publish one.

Signs of the times, however, are not wanting. Two circumstances have occurred, during the last twelve months, which rather favour my predisposition to believe that *profit, not loss*, will be the *eventual* reward of my continued perseverance in a hitherto bad trade.

The one circumstance to which I allude, is, the reduction of the stamp duty on newspapers, which has *not* been attended with any corresponding reduction of the *duty* of the letter-carriers. On the contrary its effect has very naturally been, greatly to increase the quantity of their employment; one consequence of which is, that of all the persons who are anxious to see the complete success of my Directory, *none are so much so* as the Post-Office letter-carriers; and of the unquestionable truth of this statement, any individual may fully satisfy himself, by making inquiry of those persons, connected with the Post-Office, who *dare* to speak the truth upon the subject.

The other circumstance to which I have referred is this: The Commissioners of Post-Office Inquiry, in their Eighth Report, condemn, in strong language, the publication of the *Post-Office Shipping List* by the Post-Office clerks — “*They entirely disapprove of the clerks of a department having any portion of their time employed in managing and editing a publication of this nature, and therefore recommend its immediate discontinuance.*” I need hardly add, that, whenever the said Commissioners shall do their duty in this city, they will as summarily order the “immediate discontinuance” of the Post-Office Directory, — a work held in utter detestation by the men whose name it bears — a work occupying

a large portion of the time of government officials who ought to be otherwise employed—and, in a word, a work, the conducting of which can no more abide the test of a searching inquiry into the duties and emoluments of the Post-Office servants, than could the foresaid “Shipping List” abide the test of a similar investigation.

As it is perfectly certain, then, that the days of the Post-Office Directory are numbered, I do not see any good reason (even though sustaining present loss) *why*, after six years’ perseverance, I should *now* abandon the field to a host of new competitors, who, in the absence of an efficient Directory of this city, would immediately spring up on the discontinuance of the one published by the Post-Office; and *I will not*. The office of *Clerk of the Removals* would afford a very decent remuneration to any one individual, and though self-elected—a very serious drawback, I admit—I nevertheless mean, in humble imitation of many of my betters, to retain office as long as ever I can.

With this farther pledge I conclude. Whenever the time shall arrive when the field shall be cleared of my present competitor, I will not merely give the public *as good* a Directory as any they get at present, I will give them *a much better one*. The serious loss which I have hitherto sustained by the publication of this work has greatly restricted the efforts that I otherwise should have made to perfect it. Carried on at a great expense is this book at present; but a *much greater expense* ought to be incurred, and *should be*, if I could afford it, in the annual getting up of an Edinburgh Directory. And were there but one Directory instead of two, the annual edition would be so large, that a fair remuneration, instead of an annual loss, would remain to the publisher, *without any advance upon the present price of the book*.

EXPLANATORY NOTES.

I. This mark—h. occurring very frequently in the Alphabetical arrangement, indicates that the conjoined address is the *private residence* of the individual.

II. The word “Mr,” or “Esq.” placed before or after the name of any merchant or tradesman in the Street Arrangement, also indicates that the conjoined address is the *private residence* of the individual.

III. As there are some Streets of the same name in Edinburgh, Leith, Portobello, and Musselburgh,—as for instance, Charlotte street, Hope street, St Andrew street, and some others, the word Leith, Portobello, or Musselburgh, is invariably added, *unless* Edinburgh be the place intended.

IV. In Part Second, the Streets and Places are given in Alphabetical order, with this exception,—*Closes*, and some other *minor* places, are printed in connection with the streets *out of which they lead*. Thus, for instance, *Carrubber's close* is not placed amongst the streets beginning with the letter C. but at No. 135 High Street; so that whenever a close, or other small place, is not found in its Alphabetical place, it will always be found by looking to the “*Street Directory*.”

V. To find any place in the Map, see the Map Index, in which, opposite to the name of every street, there is a *number*; then find the *same number* in the *map margin*; and, by passing your finger in a straight line from it to *St Andrew Square*, you will *touch* the place you are seeking.

VI. Map Boundaries. The City and Leith, as defined by the Reform Bill, are surrounded by a scarlet line.

THE CHARGE FOR ADVERTISING

IN GRAY'S ANNUAL DIRECTORY AND EDINBURGH ALMANAC,

Is for an advertisement of any length, not exceeding eight printed lines, five shillings; and for every
additional line, threepence. A whole page, two guineas. Engravings and Lithographic Prints
inserted at the end of the book, one guinea each.

(6^d GRAY'S DIRECTORY OFFICE, is at No. 27 Hanover Street.)

CHARGES FOR ADVERTISING

IN THE NORTH BRITISH ADVERTISER, AND IN GRAY'S MONTHLY RECORD.

THE NORTH BRITISH ADVERTISER, which is sent weekly, by its publishers, to upwards of Twelve Thousand principal firms, individuals, and public rooms, including every town in Great Britain and Ireland, containing two thousand inhabitants and upwards, was established in the year 1826, with the view of concentrating the advertisements of Edinburgh and Glasgow, and, as far as possible, those of North Britain generally, into a single channel. The inducements presented to advertisers were an overwhelming circulation, as compared with any other advertising papers north of the Tweed; and extreme moderation in the charges for advertising, when compared with the publicity given, either locally in and near Edinburgh and Glasgow, or generally throughout the Kingdom. A steady and progressive increase of advertisements for nearly eleven successive years, has completely established the vast superiority of this system of advertising.

GRAY'S MONTHLY RECORD, OR COMPANION TO THE NORTH BRITISH ADVERTISER.

As newspapers may be published on unstamped paper, if issued only once a month, or at longer periods, the proprietors of the North British Advertiser publish also a Monthly Paper, by means of which a very numerous local circulation is afforded at an exceedingly moderate charge, to such advertisements as are either repeated therein from the North British Advertiser, or inserted only in itself.

Secondly, That by "Cash" is meant—never entered in a book to the debit of the advertiser; and that the "Credit" charge is affixed to all advertisements which may be so entered, *for however short a period*.

Thirdly, That the lines of both papers contain, on an average, about *ten words each*, being considerably more words than are contained, in one line, in papers generally.

Fourthly, That whatever occupies the space of a line in depth of column is charged the same as a full line.

Fifthly, That dealers of every description, and public companies, such as Insurance companies and others, who are disposed to keep their names constantly before the public, are dealt with on liberal terms, on condition of their giving an order for inserting advertisements for twelve successive months, or even for six months certain. And advertisements of *extraordinary length*, such as the proceedings and resolutions of public bodies, catalogues of books, &c. are also objects of special contract.

HUMANE SOCIETY, the Leith Dispensary and the Edinburgh and Leith Humane Society were united in 1825. Rooms, 26 Quality street, Leith. Andrew Snody, S.S.C. secretary. James Urquhart, apparatus and house-keeper. These institutions, which are supported by voluntary contributions, afford medical aid and medicines to the diseased poor gratuitously, and the means of resuscitation to persons apparently drowned.

DIRECTIONS FOR THE RECOVERY OF PERSONS APPARENTLY DROWNED.

PRECAUTIONARY.—Lose no time—avoid all rough usage of the body—never hold it up by the feet—do not roll it on casks—do not rub it with salt or spirits—do not inject tobacco smoke, or infusion of tobacco.

RESTORATIVE.—Send quickly for medical assistance, but do not delay the following means:

I. Convey the body carefully, with the head and shoulders supported in a raised position, to the nearest house.

II. Strip the body and rub it dry; then wrap it in hot blankets, and place it in a warm bed in a warm chamber. A child may be placed between two persons in a warm bed.

III. Wipe and cleanse the mouth and nostrils.

IV. In order to restore the natural warmth of the body, move a heated, *covered*, warming-pan over the back and spine. Then put bladders or bottles of hot water, or heated bricks, to the pit of the stomach, the armpits, between the thighs, and to the soles of the feet. Then foment the body with hot flannels; but, if possible, immerse it in a warm bath, as hot as the hand can bear without pain, as this is preferable to the other means for restoring warmth. Rub the body briskly with the hand; but do not suspend the use of the aforesaid means at the same time.

V. In order to restore breathing, introduce the pipe of a common bellows (where the apparatus of the Society is not at hand) into one nostril, carefully closing the other one and the mouth; at the same time drawing downwards and pushing gently backwards, the upper part of the windpipe, to allow a more free admission of air. Blow the bellows gently, in order to inflate the lungs, till the breast be a little raised; the mouth and nostrils should then be set free, and a moderate pressure made with the hand upon the chest. Repeat this process till life appears.

VI. Electricity to be employed early by a Medical Assistant.

VII. Inject into the stomach, by means of an elastic tube and syringe, a tumbler of warm brandy and water, or wine and water.

VIII. Apply sal volatile or hartshorn to the nostrils.

The above treatment is to be persevered in for *three or four hours*. It is not to be supposed that persons are irrecoverable, because life does not *soon* make its appearance.

ON RESTORATION TO LIFE.—A tea-spoonful of warm water should be given; and if the power of swallowing be returned, small quantities of warm wine, or warm brandy and water, should be given. The patient should be kept in bed, and a disposition to sleep encouraged. Great care is also requisite to maintain the restored vital actions, and, at the same time, to prevent undue excitement.

III. cap. 169, sect. 17, enacts that it shall be lawful for every Member of either House of Parliament to receive by post any petition addressed to either House of Parliament, free from the duty of postage, provided the same be sent in a cover open at the sides, and that it do not exceed the weight of six ounces.

LATE DELIVERY OF LETTERS.—Many persons are in the habit of detaining the letter-carriers at their doors an unnecessary length of time, thereby causing delay in the delivery of letters both to themselves and others; and a request, from the proper authorities, has, from time to time, been published, that such practice may be discontinued. Here, as in London, the postmen knock or ring *twice* in rapid succession, to distinguish themselves from other visitants, and servants ought to be instructed to pay *instant attention*: to every such application, as well as to be provided with sufficient change to meet the claims of the postmen.

SCOTTISH POST TOWNS.

A list of the post towns in Scotland, with the postage of a single letter to each from Edinburgh, and the time of departure. All letters go daily, unless marked otherwise by reference to the foot notes. m. means morning—e. evening—and p. past.

places, if ordered to be sent by ship, *via* Liverpool, are taken at half the Packet rates, which must be paid when the letters are put in.

The returns of the Packets are calculated thus:—To Jamaica and back, 16 weeks; America, 15 weeks; Leeward Islands, 13 weeks; Malta, 14 weeks; Brazil, 20 weeks; Lisbon, 4 weeks.

From July to December inclu-

sive, the Packet touches at Pernambuco and Bahia, on her outward passage to Rio Janeiro; the other six months on her homeward passage.

In November, December, January, and February, the Packets touching at Bermuda go to New York direct: during the other eight months they go and return by Halifax.

Letters for places abroad, to which there are no Packets—as China, New South Wales, Sierra Leone, Cape Coast Castle, Goree, Senegal, St Helena, and many parts of South America—are forwarded in sealed ship letter bags, by vessels sailing from London or the out ports. Postage from Edinburgh, 1s. 11d.

HACKNEY COACH

REGULATIONS, ESTABLISHED BY THE LORD PROVOST AND MAGISTRATES OF THE CITY.

FARES BY TIME.—For an airing into the country and back, either by the same or a different road, at the rate of 3s. 6d. an hour.

For time spent within the City or Suburbs for any period not exceeding half an hour, 1s. and for each subsequent quarter of an hour, 6d. The Fares to be charged either by distance or time, in the option of the coachman.

HALF FARES.—For returning by the same coach, when the charge is by distance, half fares only are exigible. Tolls in addition. No king's duty chargeable.

STANDES.—When a coach is brought from any stand other than the nearest, the charge is 6d. extra. For a list of the stands, see the following table.

NIGHT FARES.—From 11 to 12 at night, fare and a quarter; from 12 to 1 morning, fare and a half; from 1 to 6 morn. double fare. No additional fare at night or morning to and from the theatre.

DETENTION.—If a carriage be detained more than 10 minutes at taking up or setting down, a charge for time in addition to distance to be made.

REGULATIONS.—1. That no carriage shall ply for hire within the City and Suburbs, or Port of Leith, without being approved of and licensed by a Magistrate. Each licence shall continue in force for two years only.

2. That each licensed carriage shall have a number issued for it, which shall be affixed, together with the owner's name, in legible letters, of a colour different from the carriage, at least one inch in length, on each door, immediately below the window frame; and the number shall also be distinctly painted on the centre of the back of the carriage, or on a piece of tin fixed under the back window.

3. That each licensed carriage shall be always provided with horses in good condition; and the carriage, including the cushions, steps, springs, blinds, windows, and check-strings, as also the harness of the horses, shall always be kept in good order and repair. The coachman, when driving, shall always keep the check-string in his left hand.

4. That each coachman shall be cleanly in his person, and conduct himself in a proper, civil, and decorous manner on all occasions.

5. That the stances shall be South College street, Tron Church, Prince's street, east and west ends, George street, between Hanover and Frederick streets, Queen street, east and west ends, and Union place, or at such other places as may from time to time be appointed. While the carriages are at the stances, the coachman shall either sit on the box, or stand at the horses' heads.

6. That there shall not be fewer than 6 carriages at each stance every week-day, at 9 o'clock morning; and on Sunday, one-fourth of the carriages licensed shall attend at each stance, from 10 morning to 10 at night, in rotation of numbers.

HACKNEY COACHES.

7. That when a carriage is at a stance, it shall be held to be disengaged. The coachman shall not inquire where he is to go previously to being engaged, nor plead a pretended prior engagement, nor draw off the stance on account thereof—the proof of a real engagement lying with the coachman. He shall wait, either at taking up or setting down a party, as long as he shall be required. When a carriage is engaged, the hour shall be punctually kept, and the arrival immediately announced.

8. That carriages shall be hired from the stance nearest the residence of the party.

9. That all parcels or other articles left in car-

riages, shall be immediately returned to the owner, if known; or, if not known, shall be sent to the Council Chamber.

10. That the fares shall be charged in terms of the following table.

11. That a copy of these regulations shall be kept by each coachman; and the regulations shall be enforced in the Council Chamber, at the instance of the Procurator-Fiscal, by penalties not exceeding £1 sterling for each offence, or by withdrawing the licence. The proprietor shall be answerable for his servants.

THE following Table of Fares was handed to the publisher of Gray's Directory, for insertion therein, by order of the Lord Provost, on the 13th March, 1834. The table is itself so very perspicuous and complete, as scarcely to require any explanation. It is important, however, to notice, that a person hiring a coach is not liable to be charged from the place he may start from, but *from the nearest coach stand* to said place of starting; *unless* he should call the coach from a greater distance than the nearest coach stand, in which case he is liable to the charge of an extra sixpence. For example; supposing it to be exactly three quarters of a mile from the Register Office to the west end of Prince's street, the fare, as by following scale, is of course one shilling; the coach being taken from the nearest stand. Should the coach, however, be required at the High School, to take a person to the same place, the fare, *by distance*, will still be but a shilling, *because* the nearest coach stand—that at the east end of Prince's street—is only three quarters of a mile from the place of destination; although the coach will in fact have travelled considerably more than that distance. Again, though a person be conveyed but three quarters of a mile in a coach, he is liable to pay a mile fare, if the stand from which his coach be hired be *more* than three quarters of a mile from the place of destination. By this regulation of always charging from the *nearest coach stand*, (which is balanced by itself, so far as the interests of the coach proprietors are concerned, and who also have the option of charging by *time* or by *distance*, as they think proper,) a person is always enabled to ascertain by reference to the following Table—all the stands being given therein—the *exact sum* he is liable to pay.

COACH FARES.

Any distance not exceeding three quarters of a mile,	£0	1	0
Above three quarters, and not exceeding a mile,	0	1	6

For other particulars, and Coach Fares by Time, see the Regulations preceding this Table.

CAB FARES.

Any distance not exceeding half a mile,	£0	0	6
Above half a mile, and not exceeding a mile,	0	1	0
Above a mile, and not exceeding a mile and a half,	0	1	6
Above a mile and a half, and not exceeding two miles,	0	2	0

And Sixpence for every additional half mile, or fractional part thereof; with this exception—

For returning by the same Cab half fare only is charged.

BY TIME.—The Cab fares are fourpence for every quarter of an hour, or fractional part thereof: that is, a person detaining a Cab a greater length of time than *one* quarter of an hour, must pay the fare of *two* quarters, and so on.

THE DRIVER has the option of charging by time or by distance as in each case he may prefer.

NIGHT FARES.—From ten till twelve at night, fare and a third; and from twelve at night till five in the morning, double fares are respectively charged.

COUNTRY.—For distances above five miles, and not exceeding ten miles, an extra shilling is charged for duty. The charge for a day to the country is fifteen shillings, and half a crown to the driver.

TAKE NOTICE.—The Cab fares are not under the control of the Magistrates in the same manner as the hackney coaches, but the fares are arbitrary, and may be advanced or reduced by any proprietor of these vehicles, as he may think proper. The fares now given are those which are at present exacted.—April, 1837.

SCOTTISH ELECTORS.

I. All persons at the passing of this Act lawfully on the roll of freeholders of any shire in Scotland, or then entitled to be put on such roll, or previous to the 1st of March, 1831, having become the owners or superiors of lands affording the qualification for being so enrolled, shall, so long as they retain such necessary qualification, be entitled to be registered, and to vote as herein-after directed.

II. Every person shall be entitled to be registered, and to vote for a shire, who, when the sheriff proceeds to consider his claim for registration, shall have been, for not less than six calendar months next previous to the last day of July, the owner (whether he has made up his titles, or be infert, or not) of any lands, houses, feu-duties, or other heritable subjects (except debts heritably secured) within the said shire, provided the subject on which he so claims be of the yearly value of £10, and shall actually yield, or be capable of yielding, that value to the claimant, after deducting any feu-duty, ground-annual, or other consideration which he may be bound to pay, or to give, or account for as a condition of his right, provided he be, by himself, his tenants, vassals, or others, in possession of the said subjects, and be either himself in the actual occupation or in receipt of the profits thereof to the above extent; but where the whole profits do not rise annually, but at longer intervals, the worth and amount of such occasional profits shall be taken into computation in estimating the annual value: and where any such property shall come to any person within the said six months, by inheritance, marriage, marriage-settlement, or *mortis causa* disposition, or by appointment to any place or office, such person shall be entitled to be registered on the first list of voters, next following such succession or acquisition.

III. Where two or more are interested in any subject to which a right of voting is, for the first time, attached by this Act, as liferenter and as fiar, the right shall be in the liferenter, and not in the fiar; and all co-proprietors or joint owners shall each vote in respect of their joint property within the shire, provided the share of each is of the yearly value of £10; and husbands may vote in respect of property belonging to their wives, or possessed by such husbands after the death of their wives by courtesy.

IV. Tenants in lands, houses, or other heritable subjects, may also be registered, and vote for the shires in which the said heritable subjects are situated, provided each tenant, (whether joint or several,) when the sheriff proceeds to consider his claim for registration, shall, for not less than twelve months next previous to the last day of July, have held such subjects or tenements, whether in his personal possession or not, under a lease, missive of lease, or other written title, for not less than fifty-seven years, (exclusive of breaks,) at the option of the landlord, or for the lifetime of the said tenant, where the clear yearly value of such tenant's interest, after paying the rent and any other consideration, is not less than £10, or for not less than nineteen years, where the clear yearly value of such tenant's interest is not less than £50, or have been in the actual personal occupancy of any such subject for the like period, where the

V. Right of voting for burghs and towns no longer to be in town councils and delegates, but in every person who, when the sheriff proceeds to consider his claim for registration, shall have been, for not less than twelve calendar months next previous to the last day of July in any year, in the occupancy, either as proprietor, tenant, or liferenter, of any house, warehouse, counting-house, shop, or other building within the limits of such burgh, &c., which, either separately or jointly with any other house, &c., or with any land owned and occupied by him, or occupied under the same landlord, and also situate within the same limits, shall be of the yearly value of £10; but the claimant must have paid, on or before the 20th of July, all assessed taxes due by him in respect of such premises previously to the 6th of April then next preceding; and such person must also have resided for six calendar months next previous to the last day of July within such burgh, or within seven statute miles thereof, and the true owners may vote, although they should not occupy any premises within its limits, or although the premises actually occupied by them should be of less yearly value than £10; and the husbands of such owners may vote, in the life of their wives, or after their death, if then

holding by courtesy; but no person shall vote who shall have been in the receipt of parochial relief within twelve calendar months next previous to the last day of July.

VI. Premises may be different (but always of the requisite value) occupied in succession by such person; but all the assessed taxes legally exigible from him in respect of all such premises must be paid; and where such premises shall be of the yearly value of £20 or upwards, and shall be jointly occupied by more than one, each occupier may vote, provided his share be of the yearly value of £10.

NORTON'S CAMOMILE PILLS are a pure extract of Camomile Flowers, prepared by a peculiar process, by which all the medicinal properties of rather more than one ounce of the flowers are concentrated into four moderate-sized Pills. They are mild in operation, and have proved wonderfully successful in removing every symptom of indigestion, sick head-ache, loss of appetite, giddiness, heart-burn, costiveness, eruptions of the skin, and all complaints arising from a disordered state of the digestive organs; they require no alteration of diet, and persons who have suffered from indigestion for several years have, by their use, in a few weeks, perfectly recovered, which is the most convincing proof of their efficacy.

Sold in bottles at 13½d. 2s. 9d. and 11s. each; by DUNCAN & Co. North Bridge, and H. C. BAILDON, (late Butler,) Prince's street, Edinburgh, and nearly all medicine venders.

Be particular to ask for "NORTON'S PILLS," for, in consequence of their great success, some unprincipled persons have prepared a spurious imitation.

THE constantly increasing demand for these Waters, proves that the care and attention used in their preparation are appreciated by the public. His **AERATED KALI WATER** is frequently preferred to the other kinds, as being more grateful to the palate, equally powerful as an antacid, and peculiarly advantageous to invalids, to whom a variety is frequently of the utmost importance. Each genuine bottle has an engraved label pasted over the cork, bearing the following inscription:—"Baildon's Aerated Kali Water, prepared *only* at the Medical Hall, 73 Prince's street, Edinburgh."

The price of this Water, both wholesale and retail, is precisely the same as that of Soda Water, and quantities of one dozen Bottles and upwards are sent, carefully packed, to any part of the country.

Walter Brunton, Esq. merchant.
The Hon. Lord Balgray.
Adam Duff, Esq. Sheriff of the County.

Sir John S. Forbes of Pitsligo, Bart.
George Ross, Esq. Advocate.
Dr Charles Anderson.
and
John S. Cunningham, Esq. Banker.

THIS INCORPORATION divides, septennially, the whole Profits amongst the Insured, who are guaranteed from responsibility. A return of Nine per Cent was made on the Premiums received from Candlemas, 1825, to Candlemas, 1832; and this notwithstanding a more than average amount of Losses during that period.

The business of the Society has been gradually and steadily increasing since the adoption of the present system of dividing the Profits, and as the Losses during the current seven years will not, in all probability, be above an average, the Assured have reason to anticipate a still more favourable result at the next investigation.

All Town Risks of the first class, Houses situated in the country, as also Farm Houses and Steadings, are taken as Common Insurances, at 1s. 6d. per Cent. At the same rate of Premium, the Stock and Crop on any part of a Farm may be insured in One Sum, *without the Average Clause*; and, if preferred, the sum insured may be allowed to decrease Monthly or Quarterly, whereby a considerable saving is effected by the Insurer.

Insurances on Farm Stock and Implements of Husbandry, are now exempt from the payment of duty.

Printed Proposals, shewing the rates and conditions of Insurance, may be obtained by applying at the Head Office, or at any of the Society's Branches.

N.B. Retail purchasers may obtain the patent starch at all respectable shops, and they are recommended to procure it in complete papers of about 5lb. each, or in papers of 1lb. having the Patentee's label, and No. 88, the government stamp, affixed, when subject to duty, by which they may depend upon the article being genuine.

Other Proofs of the wonderful Efficacy of the Pilulæ Antiscrophulæ, and the Poor Man's Friend.

To Messrs Beach and Barnicott, Bridport.

Successors and Executors to the late Dr Roberts.

Gentlemen,—For the benefit of others, I think it my duty to inform you of the good I have received by the use of the Ointment called the Poor Man's Friend, lately prepared by Dr Roberts, but now prepared by you, and of the particular service it has been to many other afflicted persons, together with the occasional use of the Pilulæ Antiscrophulæ. Respecting myself: When a boy, I had the misfortune to hurt my leg repeatedly; an obstruction in the circulation, attended by *violent inflammation and several large wounds*, was the consequence. I was attended by several of the best medical men in the town and elsewhere, but all failed in effecting a cure. After more than *twenty years'* inconvenience and suffering, I had recourse to the Poor Man's Friend, and the occasional use of the Pills; after a few times applying the Ointment, I perceived an amendment, and in the use of two or three pots effected a cure. I have repeatedly since, by accident, injured the leg, but, by having recourse to the Ointment, it is soon made sound. I always keep it by me, and in case of any inflammation in the leg or elsewhere, an application of the Ointment removes it.

I recommended the use of the Ointment and Pills to a gentleman, about 70 years of age, of an ex-

tremely full habit, who was confined to his bed with bad legs; he had the first medical attendance, who considered his case hopeless; by the use of a few boxes of Pills, and a few pots of the Ointment, he was restored.

I likewise recommended the use of both to a young woman greatly afflicted with a *Scorbutic complaint*; had been in an hospital in London for several months; her case was considered by the medical men there as incurable; she became totally unable to attend to any domestic concerns. She was cured by the use of a few pots of the Ointment, and a few boxes of the Pills, and continues so.

A gentleman, a friend of mine, who was *nearly blind*, to whom I recommended the Ointment, was, by the use of *one pot*, restored to sight.

A family of three children were extremely afflicted with *Sore Heads*,—by the use of two pots of Ointment they were perfectly cured.

A little boy, six years old, the son of a friend of mine, had a *Swelling in the glands of the neck and throat*. Some of the first medical men in the kingdom had been applied to, they thought the case very dangerous and almost hopeless, and could do nothing for him of any service. They said the only chance of his getting clear of the complaint was, in his growing out of it. I recommended a trial of the Ointment and Pills, and by using two pots of the Ointment and one box of the Pills he was cured.

I have here given you several cases, together with my own; you can make what use of them you please; if needful, I can furnish you with several others, but had rather defer them until I see persons for particulars; be assured, for the benefit of the afflicted, I shall, on all suitable occasions, recommend the use both of the Poor Man's Friend and Pilulæ Anti-scrophulæ.

I am, Gentlemen, yours very respectfully,

JOHN WINGRAVE.

St Alban's, July 23, 1835.

Beware of Counterfeits.—No medicine sold under the above names can possibly be genuine, unless "Beach and Barnicott, late Dr Roberts, Bridport," is engraved and printed on the Stamp affixed to each Package. Each Pot of the Ointment has "Poor Man's Friend, prepared by Beach and Barnicott, successors to Dr Roberts, Bridport," burnt in; and each box of the pills has on the label an impression of Hercules killing the Hydra, with the words "Dr Roberts's Alterative Pills, for Scorbutic Complaints, prepared by Beach and Barnicott, Bridport," and each direction signed with the *fac-similes* of the late Dr Roberts's and the present proprietors' handwriting.

Sold wholesale by the Proprietors, BEACH and BARNICOTT, at their Dispensary, Bridport; by the London Houses; wholesale and retail, by H. C. BAILDON, (late Butler's,) 73 Prince's Street, Edinburgh; and retail, by all respectable Medicine Venders in the United Kingdom.

LONDON THERAPEUTIC INSTITUTION,

118, HOLBORN HILL,

NEARLY OPPOSITE FETTER LANE.

THIS INSTITUTION WAS FOUNDED IN OCTOBER, 1824, by MR M.O. WRAY, under the superintendence, and aided by the late JOHN ARMSTRONG, M.D., of Russell Square, Member of the Royal College of Physicians, London, Lecturer on the Principles and Practice of Physic, and Consulting Physician to the London Fever Hospital, author of a celebrated treatise on Typhus Fever, and other popular works; WILLIAM MILLIGAN, M.D. 5, Portman Street, Portman Square, Member of the London and Edinburgh Royal Colleges of Physicians, Physician to the Middlesex Infirmary, and Royal Universal Infirmary for Children, Lecturer on the Principles and Practice of Physic, Chemistry, Materia Medica, &c.; and JOHN GARTHSHORE THOMSON, M.D. 66 Margaret Street, Cavendish Square, Member of the Universities of Cambridge and Edinburgh, and of the Royal College of Physicians, London, Physician-Accoucheur to the Ladies' Benevolent Association, Lecturer on the Principles and Practice of Midwifery, &c.; and among other eminent medical men who have attended this Institution, it had, for upwards of two years, to boast of the able and valuable services of that distinguished and accomplished Public Lecturer, and talented Physician-Accoucheur, GEORGE JEWEL, M.D. Lecturer on Midwifery, and the Diseases of Women and Children, at the Windmill Street School of Anatomy, Physician-Accoucheur to the Middlesex Infirmary, and author of a popular medical work, introducing a new mode of treatment in Fluor Albus.

MR WRAY, the founder of the above Institution, most respectfully informs the Nobility, Gentry, and Public, that he has recently enlarged his Town Residence by taking the adjoining House in Ely Court, and has fitted it up in an elegant style, which will be found particularly well adapted to persons visiting London for the purpose of receiving Medical Advice, as possessing advantages (not to be met with at Hotels or Private Apartments) essentially requisite for the speedy restoration of Health.

A Bed-Room and Sitting-Room combining every comfort and convenience, with Board, Physician's and Surgeon's attendance, Four Guineas per Week.

Persons who consult their own Medical Advisers, may have Apartments, on as moderate terms as at any of the respectable Lodging-houses in London, with all the Medical Benefits this Establishment is calculated to afford Invalids, viz. a Bed-Room from Ten Shillings to One Guinea per Week, or a Bed-room and Sitting-room from One Guinea to Three.

Another Leading Feature of this Institution is, to afford to persons not residing in the House, the advice of the first Medical Talent in London, on their calling at the Physician's and Surgeon's hours of attendance—from Eleven to One o'clock, daily.

Two hours every Evening (from Seven till Nine o'clock) are devoted to Surgical Cases, and persons calling at these hours may receive the Physician's and Surgeon's advice, *free of expense*, and any Medicines prescribed will be dispensed at the usual Druggists' prices.

Patients in the Remotest Parts of the Country can be treated successfully, on describing minutely their case, and enclosing a remittance for medicine, which can be forwarded to any part of the world, securely packed, and carefully protected from observation.

The Proprietor has a Suite of Apartments vacant

THERAPEUTIC INSTITUTION *continued.*

at his Country Residence, Ashville House, Battersea Fields, delightfully situated near the Banks of the Thames, commanding a full view of the River, with extensive Flower Garden, Farm Yard, Kitchen Garden, and Fields attached, suitable for an Invalid requiring Medical attendance, or a Lady desirous of retirement, who may, if preferred, have her own attendants.

The use of one of Mr Wray's Vehicles, or Horses for riding, if required.

UNPARALLELED SUCCESS!—The Superiority of WRAY'S BALSAMIC PILLS over Copaiba, Cubebs, and every other medicine, in the cure of Gonorrhoea, Gleet, Strictures, Seminal Weakness, Whites, Pains in the Loins, Affections of the Kidneys, Gravel, Lumbago, Local Debility, Irritation of the Bladder or Urethra, and other Diseases of the Urinary Passages, becomes every day more apparent, from their extraordinary demand and universal success in all the above complaints; as since their first introduction to the public, thousands of cases have annually been cured. Within three years, prior to which they had been employed in private practice, in upwards of 1800 cases (many of them most inveterate,) and in no one instance known to fail, or to produce those unpleasant symptoms so often experienced while taking mercury, copaiba, cubebs, turpentine, and that class of medicines usually resorted to in these complaints. Possessing tonic properties, they agree with the most delicate stomach, strengthen the Digestive Organs, increase the appetite, and improve the general health. They require neither confinement nor alteration of diet, (except abstinence from stimulants, where considerable inflammation exists;) and, as experience has amply proved, they will effect a cure sooner than copaiba (the dangerous results of which, in the inflammatory stages, are too well known to need any comment,) or any other medicine in present use, and may be justly considered the only safe and efficacious remedy in all stages of those disorders. Prepared only by M. O. WRAY, at No. 118 Holborn-hill; and sold Wholesale by Messrs Barclay and Sons, No. 95 Farringdon street; Butler, No. 4 Cheapside; Sutton and Co. LIFE SOCIETY.

ACCUMULATED CAPITAL, UPWARDS OF £1,600,000.

This Society is founded on the equitable principle of mutual guarantee, the whole benefit of its business being enjoyed by the Members, in the shape of bonuses, added periodically to the sums insured. The Premiums (under 45 years of age) are nearly 10 per cent below the usual rates.

Persons insuring with the Society thus obtain an immediate advantage in the lowness of its rates, besides the ultimate benefit of successive periodical additions to their Policies, arising from the division of the surplus capital. Three septennial Bonuses have already been declared, amounting respectively to £20, £24, and £25 per cent on the Amount of Premiums deposited—the calculation in each case being made upon the whole premiums paid from the date of the Policy.

The present Income of the Society exceeds £150,000 per annum, and the new Policies now issuing are in the proportion of Eight Hundred annually.

The subjoined list (exhibiting a few of the earlier Policies, with the additions thereto) will serve to shew the practical operation of the principle of the Society.

No.	Sum Insured.	First Bonus.	Second Bonus.	Third Bonus.	Total claim on the Society.

3589	4999		465 2 0	1050 3 0	6514 5 0

A Fourth Bonus will be declared in July next.

The Insured are permitted, without any extra Charge, to visit any part of Europe situate between the Elbe and Brest, and no extra payment is demanded in name of Entry money, or to defray expenses of management.

Thus the Norwich Union Society, in present economy, and in prospective advantage, is fully equal to any similar establishment in this kingdom.

FIRE SOCIETY.

CAPITAL, £550,000

This Institution is wholly distinct from the Life Society, and transacts every description of Fire Insurance business on the most liberal terms. The fulfilment of its obligations is guaranteed by a numerous and opulent proprietary, and the Insured, who are free from all responsibility, participate with the shareholders in the profits.

Expenses incurred by the removal of goods, in case of Fire, will be defrayed in proportion to the amount insured.

Losses by Fire, occasioned by lightning, will be made good.

No charge is made for Policies, (unless the sum Insured is below £300,) nor for indorsements or alterations.

Tables of Rates, and all other information may be had at the Office of the Society, or of any of the Agents in Scotland.

2dly, For young and middle-aged lives the LOWEST RATES OF PREMIUMS that entitle the assured to participate in the profits.

3dly, Three-fourths of the profits divided every five years among those who have been Assured full four years on the equal scale of premiums. The bonus declared in 1833, averaged L.16 per cent on the premiums then paid.

4thly, Policies granted without any charge to the Assured beyond the stamp duty.

5thly, No extra charge for residence in any part of Europe, nor for proceeding to any port (in a decked, sailing, or steam vessel) between Brest and the Elbe. Licences are granted to go to most parts of the world upon terms proportionate to the risks.

FIRE DEPARTMENT.

The Company insures property of every description on the most reasonable terms.

The allowance of ten per cent, which has been made on the premiums paid on policies of seven years' standing, is the surest proof of the unprecedented success of this Institution.

LIFE DEPARTMENT.

Tables have been calculated expressly for this Institution, and, independent of a reduced rate of premiums, as compared with other offices having a subscribed capital, persons assured for the term of life will be entitled, at the end of every seven years, to one moiety of the profits of the Company, after a deduction of such sum per annum for the guarantee of the capital as the directors may think reasonable, the extent of which is, however, limited by the deed of settlement.

The share of the profits to be so allowed to the assured may be applied either by adding to the amount of their respective policies such reversionary sums as are equivalent to such profit, or in reduction of the premiums thereafter to be payable on such policies, provided such option be declared in writing, to be left at the Company's Office within three calendar months next after the division shall have been declared; but if such option be not so declared, such share of profits will be added to the amount of the policies.

GUARDIAN FIRE AND LIFE ASSURANCE COMPANY'S ADVT. *continued.*

The first division of profit to the assured was made to Christmas, 1828, when bonuses were allotted to the several policies, amounting (on an average of the different ages) to rather more than one per cent per annum on the sums insured by such policies; and a second division of profit was made to Christmas, 1835, when bonuses of nearly similar amounts were allotted among the assured. At each period of division, the reversionary bonuses added to the several policies averaged rather more than twenty-eight per cent on the amounts of premiums paid thereon during the preceding seven years.

If any person assured with this Company for seven years, or for life, should die within thirty days after the premium shall become due, such assurance is to be valid in case the premium be paid within such period of thirty days; and although every policy on a person's own life becomes void by the conditions of the Company in case of suicide, death by duelling, or by the hands of justice, except as provided for in the fourth condition, the court of directors have the power of taking circumstances of peculiar hardship in such cases into consideration, and of allowing to the representative of the person so dying, the whole or such part of the sum assured as they shall think fit.

Persons assured in this office are allowed to pass by sea from one part of the United Kingdom to another, and also in time of peace to pass and repass, in decked vessels, or steam boats, from British to foreign ports, between the Elbe and Brest, both inclusive, without extra premium or special leave of the directors, as is usually required. — No additional premium will be required from military men, unless when called into actual service. — No charge will be made for entrance money or admission fees. — No charge made for policies beyond the cost of the stamp.

EDINBURGH, DALKEITH, AND
LEITH RAILWAY.

THE Mid-Lothian coal proprietors bring many kinds of coal into the Railway depots at Edinburgh and Leith. All those of the finest qualities are sent thither, carefully selected and handpicked, to fit them for the competition in those great markets; and those of inferior quality are sold at proportionally inferior prices.

It will be evident to all, of how great importance it is to the consumer, as a security against fraud, to have the stores of the coal proprietors thus brought into town. In Railway-borne coal, no dealer could commit a fraud without a connivance with the servants of one of the coal proprietors, and also with the servants of the Railway Company. It is especially to be remembered, that the Railway Company and their officers have no common interest with the dealers in any article carried on the Railway; they only furnish the means of transport; and it is their interest to see justice done to the public, in which the officers exercise the functions of a police, in virtue of the Railway Act, which empowers them to compel all coal carried out of the depots to undergo the test of the Company's weighing machines.

Let consumers of coals attend pointedly to the following instructions: —

1st, Never receive coals without a certificate of weight and quality from one of the Railway Company's weighers.

2dly, Attend to the hour of departure marked in the certificate; and if the carter appears to have travelled under the rate of three miles an hour, reject his coals.

3dly, Never allow the certificate to be kept and carried away by the Carter; but when inspected, let it be destroyed, or enclosed back to the Manager or the weigher, to have it ascertained that it is not a forgery.

4thly, If coals appear on delivery to be of a different quality from what were ordered, a competent person shall be sent to inspect them, on application being made to the weigher.

5thly, Avoid any coal merchant who appears unreasonably averse to supplying Railway-borne coal. The respectable portion of the coal merchants in Edinburgh and Leith have a great advantage in supplying their customers directly from the stores of the coal proprietors in the Railway depots; for they save thereby the expense of private coal-yards, and of storing, selecting, and loading; and through the Railway Weigher's Register, they can always obtain a check upon their carters, and evidence of their own honesty.

N.B.—No coals are allowed to be weighed in the Railway Depots except those purchased there.

Weigher in Edinburgh Depot—William Murray.

Weigher in Leith Depot—John Somerville.

THE RAILWAY COACHES to Fisherrow, Dalkeith, Lasswade, &c.—Fares Sixpence—depart from 1st April till 30th September, from St Leonard's Depot, Edinburgh, at 7*, 8½, 10, 12, 2, 4, 6, and 8½.

From Seafeld Depot, Leith, at 10, 12, 2*, 4, and 6.

In WINTER those marked thus * are discontinued.

PARCELS for the Railway Coaches are received at the Duty House, Prince's Street, and the Coach Office, No. 10, St Leonard's Depot; at Mr Hislop's, Dalkeith; and Mrs Jobson's, Sheriff-hall.

N.B.—The Railway company will not be responsible for the loss of any parcel above the value of five pounds sterling, unless the value be stated, and booked, and insurance paid accordingly.

FOREIGN AND DOMESTIC LIFE OFFICE,

70, CORNHILL, AND 5, WATERLOO PLACE, LONDON.

ESTABLISHED IN 1824.

"The Asylum," says the Historical Sketch of the various Life Offices, "was instituted for the express purpose of assuring deteriorated lives, — lives rejected by other Offices, and lives avowedly diseased. To this unprecedented but most useful business, it was at first restricted, and the philanthropist will say it ought to succeed.

"Soon after its establishment, this Office added to its original business the assurance of select lives on lower terms, and under a greater variety of modes, than any other Office; and by thus ringing changes on *equivalents*, holds out attractions well suited to the taste and circumstances of the public at the present day."

This is the only Company constituted in the Northern part of the Kingdom, exclusively for the purchase of Reversionary Rights—absolute or contingent—annuities or life interest—policies of assurance on lives—shares in government and private fortunes—and, in general, of all rights extending over property, funded or real, or otherwise well secured, the emergence, or term of payment of which; depends upon some contingency of life or survivorship susceptible of calculation.

Every man of business must have found, in the course of his experience, much difficulty in securing or realizing those rights belonging to his clients, which, among the manifold relations of society and individuals, now so frequently arise, under contracts of marriage, entails, and other destinations, family settlements, and similar deeds, where limited rights of life interest and fee, depending in many cases on complicated contingencies, are secured to parties having separate and frequently conflicting interests. Even where the contingencies by which such rights may be defeated, are comparatively of a remote and improbable nature, they nevertheless are found to affect their marketable value in perhaps a very disproportionate degree. For although a certain class of contingencies may be guarded against by counter assurances, through the medium of some one or other of the numerous life offices now established, still it is not easy at all times for individuals, unaccustomed to the consideration of such matters, either to devise the most effectual means, as applicable to any particular case, of securing the protection of life assurance, or to provide the necessary funds for the payment of the requisite premiums. Parties are thus frequently under the necessity of leaving themselves without the protection of life assurance, and thereby running the hazard of having their otherwise valuable rights entirely defeated, or are forced to bring their contingent rights into the market, under every disadvantage. But these difficulties, so formidable, and frequently so oppressive to individuals, disappear, or are greatly modified, when a number of such contingent or reversionary rights are held by a public body or company, who can, with comparative safety, on a large and collective scale, undertake the risk of contingencies, which, in any individual case, it would be most imprudent to hazard; or, if judged expedient, can readily command the means of resorting to the protection of life assurance, in the most convenient and efficient form.

The NORTHERN REVERSION COMPANY has accordingly been established with the view of meeting the exigencies above alluded to. The accurate observations which have now been made on the duration of human life, the valuable practical tables which have been deduced from these observations, and the well ascertained *formulae* by which such computations are regulated, enable correct calculations to be made, in almost every case, of the true worth and value of any reversionary or life interest, depending on particular or combined contingencies of life or survivorship. While in this way the capital of a company may be safely invested with a reasonable prospect of remunerating profit, parties having such rights to dispose of, and wishing to realize their fair marketable value, have the means of doing so afforded to them through the medium of this Company, without undergoing the expense and delay, and very frequently the disappointment, attending a public sale.

In order as far as possible to facilitate the transaction of business with the Company, forms, adapted to various cases, have been prepared for enabling parties or their agents to tender proposals of sale. Copies of these forms, as well as every other necessary information, may be readily had on application to the Secretary of the Company, at his Chambers, 12 Duke Street, to whom all communications (post paid) are to be addressed.

TAIT'S EDINBURGH MAGAZINE.

PUBLISHED MONTHLY, PRICE ONE SHILLING.

THE volume of *Tait's Magazine* for 1836, although costing only Twelve Shillings, contains as much letterpress, by a number of the ablest writers of the day, as is given by the London magazines and the Quarterly Reviews for *Thirty-six Shillings*; or as is contained in twenty volumes of novels, as usually published, in post 8vo. at 10s. 6d. each, or £10, 10s. in all. To say nothing of condensation of matter and variety of subject, each number of *Tait's Magazine* gives, for *One Shilling*, more reading than is contained in a volume and two-thirds of a volume of a modern novel, at *Seventeen Shillings and Sixpence*.

"There is no monthly periodical so carefully got up as *Tait's*. On every portion of it, the utmost pains are bestowed. The articles are not only well selected and timed, so as just to hit the reigning taste of the day, but they are all judiciously digested and condensed, and contain the greatest amount of light or solid matter within the narrowest possible limits. Thus not an inch of ground is thrown away."—*Sun*.

"In a literary point of view, *Tait's Magazine* is equal, if not superior, to the most distinguished of its contemporaries; and it is no less remarkable for the talent and nervous energy with which it advocates its political tenets. While it is one of the best, it is, at the same time, the very cheapest periodical extant."—*Liverpool Chronicle*.

"A magazine conducted without fear and without favour, advocating the cause of the people."—*Spectator*.

"The people of Ireland owe a debt of deep and lasting gratitude to the conductor of this talented periodical. It has imparted to us an inexpressible feeling of delight, to find that the miseries of Ireland have won the sympathies of the genius of Scotland, and to see her wrongs discussed with a warmth and energy that must tend to infuse fresh courage into the hearts of Irishmen, in their struggles for national independence."—*Galway Free Press*.

"This magazine excels in poetry; at least, that which it puts forth is of a more masculine cast than is usually met with in other periodicals, and, at the same time, inferior to none in elegance and polish."—*Londonderry Journal*.

"Decidedly the best monthly periodical now published."—*Sheffield Iris*.

Published by WILLIAM TAIT, Edinburgh; SIMPKIN, MARSHALL, & Co. London; and JOHN CUMMING, Dublin.

"A most amusing book, full of the best kind of antiquarianism. It has had a great sale, and it well deserves it. Sir Walter Scott and Charles Sharpe have both communicated anecdotes of the olden time."—*Blackwood's Magazine*.

Just published, in 8vo. price 12s. the Sixth Volume of the

HISTORY of SCOTLAND, by P. F. TYTLER, Esq. This volume embraces the important period of the Reformation. The materials from which the greater portion of this volume has been composed, consist of the original letters and papers of Knox; the Lord James, afterwards the Regent Muray; the Queen Dowager, Mary of Guise; Lord Burleigh; the Secretary Lethington; Argyle, Glencairn, and others, who were the principal movers and actors of the times. To these and other manuscript sources, the author has had full access, and they have enabled him to throw light on much that has hitherto been obscure, and to settle some points, till now keenly disputed.

"This volume is one of the most important productions of the press. Mr Tytler has consulted the records in the state paper office, which have been undisturbed for three hundred years; and the result is a widely different version of the events, and a no less different picture of the actors who took the prominent share in bringing about or resisting the Reformation, and in all the memorable affairs of a

distracted but exceedingly momentous period. In a word, the discoveries are so curious, and the exposition so striking, that we can truly say, we are unacquainted with any publication more deserving of universal attention."—*Literary Gazette*.

"The descriptions of the battles are concise, but full of spirit. The events are themselves of the most romantic kind, and are detailed in a very picturesque and forcible style."—*Times*.

"The evidence of this very interesting fact," (that Richard II. said by the English historians to have been murdered at Pontefract Castle, actually lived many years in Scotland, after the period of his supposed murder,) "will appear in the third volume of Mr Tytler's History of Scotland. Like the tenor of the work in general, it reflects the highest honour on Mr Tytler's talents and industry."—*Sir Walter Scott*.

"The most brilliant age of Scotland is fortunate in having found a historian whose sound judgment is accompanied by a graceful liveliness of imagination."—*Quarterly Review*.

"Highly creditable, in all respects, to Mr Tytler. Its tone is unprejudiced, manly, and impartial. Such a History of Scotland was much wanted."—*New Monthly Magazine*.

"An accurate, well digested, well-written history, evincing 'deliberation, research, judgment, and fidelity.'"—*Scotsman*.

These Tables have been calculated expressly for the present Institution, partly from the Government and partly from the Carlisle Tables of Mortality, slightly modified by reference to other recent and accredited sources.

The promoters of this Institution, which has already acquired a considerable number of members, rest their claim to the patronage of the public on the following, among other grounds:—

1. The premiums for young and middle-aged lives are upon an average about 25 per cent below those of such of the present offices as divide all the profits or surplus among the assured. In most of these offices the premium on an assurance for the whole of life is higher, at the age 20, for instance, than in this at the age 30, without taking into account the entry money which is required by these offices, but which is wholly dispensed with by this Institution. For assurances on joint lives, and in favour of any one specified life after the failure of another, as for a wife on the death of her husband, the terms are equally favourable.

2. The Surplus will be preserved entire for the benefit of those who have paid into the fund a sum, which, accumulated at 4 per cent compound interest, shall be equal to the sum secured by the policy; instead of a great part of such surplus being divided among the representatives of those who have not

SCOTTISH PROVIDENT INSTITUTION ADVERTISEMENT *continued.*

lived to contribute one-half, or even one-fourth, of the sum assured. The bonus given on such policies is clearly so much loss to those who live the longest, and contribute the most to the common fund; and who, from whatever source a surplus may arise, are alone entitled to share in it, and that in proportion to the value of their respective policies. By this arrangement there is reason to hope that, when the first bonus shall be declared, as it must be by the Deed of Constitution about fifteen years hence, the sum to be added to the *first year's* policies will be greater than has been given in the same period by any other office whatever. The business already done by this Institution, and the prospects that lie before it, when its peculiar advantages shall be duly appreciated, fully justify this anticipation.

3. The Directors are bound, by the Deed of Constitution, to purchase policies of seven years' standing and upwards, issued for the whole of life, according to a table already prepared, to which the assured will have access. They are also authorized to make allowances to the parties interested, even where the policies have been forfeited.

Upon the whole, it will be found that though the premiums have been so greatly reduced, yet the provisions on behalf of the assured are in other respects as liberal as is consistent with security; while the respective interests of the members have been adjusted upon the most equitable principles.

Forms of proposals, and other necessary information, may be had on application at the Offices in Edinburgh and Glasgow, if by letter, to be free of postage.

MRS FURLONG'S

NEW EDUCATIONAL INSTITUTION,

BEING a full and most complete course of female instruction, conducted on the intellectual system, under eminent masters, and based upon decidedly CHRISTIAN PRINCIPLES.

CHARGE.—To include a full *Educational* course, 21 guineas per annum.

Where less is required, 18 guineas per annum, and for Elementary course pupils, 14 guineas per annum.

As the advantages with which each successive stage of education is prosecuted, must, in a great measure, depend upon the manner in which the previous stages have been conducted, it is manifest that it is alone by *steadily persevering* in one system, that full justice can be done to either the Pupil or the Teacher, time being the only true criterion by which either the efficiency or inefficiency of a system, or the capacity or incapacity of a pupil, can be determined.

Under this conviction, and in order to hold out every possible inducement to parents to give her "EDUCATIONAL COURSE" a fair trial, MRS FURLONG has determined that where two or more of a family attend her institution for the Elementary branches, and that it is *fully understood* that they shall continue for at least ONE SESSION, the Fees shall be charged on the lowest possible scale, and shall be regulated by the number of studies engaged in.

[Ladies (not Pupils) will be permitted to attend any of the classes, by payment of the regular fee for each branch according to the scale of charge established in the Institution, and a small entrance fee on each branch. The "entrance fee" (it is understood) being merely to keep the Classes select. If three branches are taken together, the entrance fee will be charged for two branches only.] Prospectuses and scale of charges to be had at the Institution.

The Session is divided into four terms or quarters.—The 1st October;—15th December;—1st March;—and 15th of May.

The number of pupils for the educational course being *limited*, it is requested that, previous to the removal of a pupil, a quarter's notice will, if possible, be given, in order that the vacancy may be immediately filled up.

STANDARD LIFE ASSURANCE COMPANY,

CONSTITUTED BY ACT OF PARLIAMENT,

For Assurance of Lives and Survivorships, Endowments for Children, Immediate, Deferred, and Survivorship Annuities, and for the Purchase of Reversions and Annuities.

CAPITAL, £500,000.

Head Office,—21, SOUTH ST ANDREW STREET, Edinburgh.

GOVERNOR,—His Grace the DUKE of BUCCLEUCH and QUEENSBERRY.

DEPUTY-GOVERNOR,—The Most Noble the MARQUIS of LOTHIAN.

The CAPITAL of the Company is FIVE HUNDRED THOUSAND POUNDS Sterling; besides which, the premiums and accumulating interest form an increasing fund, wholly applicable to the purposes of the Institution under the Act of Parliament by which the Company is constituted.

While persons making Assurances are thus provided with an undoubted guarantee for the fulfilment of the Company's engagements, they also have it in their power, without incurring responsibility, to participate largely in the Profits of the business.

THE RESULTS of the investigation of this Company's affairs, as at 14th November 1835, give the best evidence of the benefits which are afforded by this Establishment.

The following Table exhibits specimens of the BONUS ADDITIONS which have been declared by the Company on Policies opened prior to that date, in the class entitled to participate in the profits of the Company.

1835, "	1000	12 10 0	1012 10 0

Note.—These additions are vested rights after a Policy has been in existence five years.

The principles of division which have been adopted are such, that assurers are all placed impartially on the same footing, each individual having a proportionate share of profit allocated to his policy according to the period of its existence. No distinction is thus made conferring advantages upon parties assuring at any particular period at the expense of those who may enter at another; while, at the same time, the benefit of those who shall stand long assured with this Company is provided for by an adherence to the plan of division which has been acted upon so successfully by the *EQUITABLE SOCIETY* and *ROCK ASSURANCE COMPANY* of London.

In addition to the advantages offered by a large subscribed Capital, and the equitable principles on which the division of profits proceeds, the *Standard Life Assurance Company* has to hold forth to the public another regulation conferring peculiar benefit on Assurers, which is,—The provision, that a DIVI-

SION OF PROFITS shall be made among the Assured at the expiry of every FIVE YEARS. The importance of this arrangement must be evident to every one, as affording, in the *first* place, renewed opportunities of minute investigation into the Company's affairs; and, in the *second*, great advantage to Policy-holders, by the frequent additions which will thus periodically be made to their Policies.

THE OTHER PROVISIONS AND REGULATIONS for conducting the business of the Company are conceived on the most liberal principles for the encouragement of Assurance among all classes. The following are among them:—

No charge is made on parties assuring, under the head of Entry-money, Admission Fee, or otherwise.

Premiums may be made payable yearly, half-yearly, or quarterly, according to the inclination of parties.

Military men are not charged with extra premiums, unless called into actual service.

Persons whose lives are assured are permitted to pass and repass by sea, in time of peace, from any part of Europe to another, without application being made for such licence, or payment of any additional premium on account of the same.

No extra premium is charged for Foreign residence, temporary or permanent, within the limits of Europe. Parties going beyond these limits are assured on reasonable terms.

Onerous Assignees to Policies opened by persons on their own lives, when duly admitted by the Company as the holders, will be considered to stand in an equally favourable situation as if they had been the original assurers.

Assurances of fixed sums, for limited periods, and on the various combinations of Joint Lives and Survivorships, as well as Immediate and Deferred Annuities and Endowments, can be effected on moderate and advantageous terms.

FAMILIES who are in the habit of sending presents of CONFECTIONS to their Friends abroad, are requested to try A. FERGUSON'S Superior MIXTURES. His GINGER, CINNAMON, PEPPERMINT, and other STOMACHIC LOZENGES, for Strength and Fineness of Flavour, he is confident cannot be surpassed, One Ounce of which being equal to Three Ounces of the generality of Lozenges sold. A. F. guarantees all his Lozenges to be made entirely of Sugar, whereas in England, immense quantities are adulterated with prepared Stucco, and in Scotland with Potatoo Flour. Adulterated Lozenges may be detected by dissolving them in cold water. The sugar and gum, of which alone Genuine Lozenges are composed, dissolve in the water, while the starch falls to the bottom. A. FERGUSON invites this test to his goods.

LEITH SIGNALS.

The signals hoisted at the end of the Pier at Leith, to shew the depth of the water, are as follows:—When the ball is at the top of the mast, the depth of water is ten feet—the same with a pendant underneath, eleven feet—the pendant above the ball indicates twelve feet—two balls, thirteen feet—two balls, with pendant below them, fourteen feet—the pendant with the two balls below it, fifteen feet—the pendant betwixt the two balls, sixteen feet—a tricolor flag, seventeen feet—the same, with ball above, eighteen feet—the same, with ball below, nineteen feet. And whenever any of the above signals are placed half-mast down, the water is half a foot deeper than as above stated.
